WORK EXPERIENCE

Sr. Developer Relations Engineer @Monad Foundation

Nov 2024 - Present

- Significant contribution in the **Farcaster integration launch campaign**, I was involved in educating about Mini Apps, assisting developers and assessing/providing feedback for Mini Apps built by developers.
- Was responsible for **Monad Faucet during Testnet Launch**, faced a lot of challenges for a few weeks and later the project was passed onto Engineering.
- Built **Monad Games cipher game** to increase community engagement and shared the learnings of building it with developers.

Developer Relations Engineer @Celo Foundation

Jun 2022 - Oct 2024

- I spearheaded the integration of **Opera's MiniPay wallet** into the Celo ecosystem and onboarded key on-ramp partners like *FonBnk*, *Paychant*, *CashRamp* and *YellowCard*.
- As the **SocialConnect** protocol point of contact, I've facilitated its adoption by over **3M users**, including integration with **MiniPay** and various dApps in the Celo ecosystem.
- Created and maintaining **Celo Composer**, **Next.js**-based starter template with **Hardhat & Viem** integrated, boasting over **2.9k+ downloads** on npm.
- I am responsible for on-ground and remote support at **hackathons** (6 ETHGlobal and Celo specific), leading to the addition of **400+ projects** in the Celo ecosystem!
